

# Produce Clerk

---

**Connect our guests with the best that local farmers have to offer; engage and educate our guests with what's fresh and in season.**

---

**A successful produce clerk hits the ground running**, self-motivated to stay one step ahead of the day's activities. They use their time wisely and efficiently, but are never too busy to interact with our guests, answering questions and helping them locate the ingredients that they're looking for. Their organizational skills and attention to detail are huge assets that ensure the produce displays and back stock are always at their best.

## **Performance Expectations**

Our guests just love the heaps of fresh produce displayed in our market, particularly in the summer when locally farmed produce fills the majority of this department. They depend on us for the freshest, best tasting fruits and vegetables that they can get their hands on - and it doesn't happen by accident. Our team works tirelessly to ensure that our displays are constantly stocked and rotated, knowledgeably caring for the products to keep them fresher for longer. With ever changing selection, our team is responsible for staying on top of signs and pricing to accurately convey information.

## **Development Opportunities**

- Gain confidence in guest service.
- Learn something new about produce everyday.
- Strengthen your teamwork skills.

---

**Ready to become a fanatical day maker? We'd love to meet you!**

**Bring your cover letter & resume to the market to apply.**

Relevant experience is always great, but we're more interested in finding keen learners who genuinely love interacting with people.
